WE DO MORE FOR YOUR HEALTH, NATURALLY!

Natural supplements¹
and their possible uses.

At MMM, we work for your well-being. This is why we provide you with the health alternatives you need to take care of yourself at all times.

In the next sections, you'll find natural products, such as:

- ✓ Protein derivatives
- ✓ Homeopathic products
- ✓ Vitamins and minerals
- ✓ Probiotics
- ✓ Herbal products

Natural products are made from organically grown, chemical-free medicinal plants, to ensure the plants keep their natural structure, with all their nutrients and therapeutic properties. These products are not intended to diagnose, treat, cure, or prevent disease.

As such, you should always consult your doctor or pharmacist and check if the supplements you order could interfere with your maintenance medications.

FREQUENTLY ASKED QUESTIONS

What are OTC drugs?

OTC drugs and items are health-related drugs and items that are available over the counter, outside of the pharmacy area. The cost of these OTC drugs will not count towards your total Part D drug costs.

How does this benefit work?

Your coverage offers you a limited amount of money for OTC drugs and items. Refer to your Evidence of Coverage document for more details. This benefit offers you the opportunity to purchase drugs and items from a list that includes several categories, from painkillers to homeopathic medicines and vitamins. It also gives you the opportunity to maximize your Medicare Part D benefit and maintain your drug therapy throughout the year.

How long is this catalog valid?

The current catalog is valid for the 2023 policy year, until December 31st.

How long will it take for my order to be delivered?

If you use the At Your Door service, it will take approximately, no more than 5 working days after you complete the order. If you prefer to use your benefit at the pharmacy, you can pick up the items the same day.

How do I know how much money I have available to order?

Each coverage has different benefits. To check the amount allocated to your coverage, check on the mobile application in the OTC at Your Door section directly, by calling Member Services, or by visiting one of our service offices near you.

Can I share my benefit with a family member or friend?

OTC drugs and items are intended only for members' use to assist with a medical or health need. Use of this benefit to order OTC items for family and friends is prohibited.

If I get a damaged item at home, what is the process for exchanging or returning?

If you receive a damaged item, call us within 30 days of receipt of your order. A replacement item will be sent to you. Other returns or exchanges are not allowed.

May I purchase disposable diapers and other adult incontinence items, pressure monitor, and gloves at the pharmacy?

No. These items are only available for home delivery.

Is there a different catalog for the pharmacy?

No, the catalog is the same. However, prices, presentations, and product names may vary by pharmacy.

Where do I need to go in the pharmacy and how do I order catalog items?

You will be able to pick up OTC items at your favorite pharmacy WITHOUT A PRESCRIPTION in the pharmacy area. The items offered through this service are listed in the OTC catalog.

Which ones are the participating pharmacies?

You can find the list of pharmacies in the Providers' Directory or on our website: www.mmmpr.com.

Are the prices shown on the OTC to your Door catalog the same as in my pharmacy?

Not necessarily. We study market prices to make sure that catalog prices are similar to those. However, there might be a slight difference in prices among the diverse businesses.

May I order by phone or on the mobile application directly to the pharmacy of my choice and pick it up later?

No. The phone or mobile ordering service is exclusive to the OTC at Your Door program.

If the total cost of the OTC items I'm picking up at the pharmacy surpasses my available balance, can I pay the difference at the pharmacy?

Yes. If the amount due is greater than your available balance, you can pay the difference at the pharmacy.
