

**MMM Healthcare, LLC**

**Formulario de Medicamentos OTC  
2018**

## **¿Qué es el Formulario de Medicamentos OTC?**

Es una guía de referencia rápida para que tenga una idea del suplido fuera del recetario (OTC, por sus siglas en inglés) de medicamentos y artículos, cubiertos por nuestro. Es importante que sepa que esta guía sólo ofrece algunos ejemplos de lo que se cubre en cada categoría.

## **¿Qué son los medicamentos OTC?**

Los medicamentos OTC son medicamentos Over-The-Counter, o sea medicamentos que se encuentran fuera del recetario y no están cubiertos por la Parte A, Parte B o Parte D de Medicare. Son seguros y eficaces para el tratamiento de diferentes condiciones médicas y han sido aprobados por la Administración de Drogas y Alimentos (FDA, por sus siglas en inglés). El costo de MMM Healthcare, LLC de estos medicamentos OTC no contara para el total de sus costos de medicamentos de la Parte D (es decir, la cantidad que se paga no se incluye para la brecha de cubierta).

## **¿Cómo funciona este beneficio?**

Durante el año 2018, su cubierta le ofrece una cantidad limitada de dinero para medicamentos OTC. Refiérase a su documento de Evidencia de Cubierta para más detalles. Este beneficio le ofrece la oportunidad de adquirir medicamentos de una lista que incluye diversas categorías, desde analgésicos hasta medicamentos homeopáticos y vitaminas. También provee la oportunidad de maximizar su beneficio de la Parte D de Medicare y mantener su terapia de medicamentos durante todo el año. Existen medicamentos que están disponibles en recetario y también en versión OTC, como por ejemplo: Zantac (ranitidine) o ibuprofen (Advil). Consulte con su médico si la alternativa OTC es una opción para su tratamiento y de esta manera extender el beneficio de la Parte D de Medicare.

## **¿A quién puedo consultar si necesito un medicamento OTC?**

Consulte con su médico y/o farmacéutico acerca de los diversos medicamentos que pueden ayudarle a sentirse mejor y otros suplidos que le serían útiles.

## **¿Qué debo hacer para obtener un medicamento OTC?**

**Para aprovechar este beneficio, recuerde que necesita pedirle a su médico una receta.** Esto es importante pues su médico puede recetarle los medicamentos y suplidos más indicados según su condición de salud y asegurarse de que no tengan reacciones adversas con otros medicamentos recetados que está tomando o que no afecten otras condiciones de salud que usted tenga.

Cuando tenga la receta, debe ir a una farmacia participante y presentarse en el área de recetario con la receta, los medicamentos o suplidos y su tarjeta del plan. Recuerde que los medicamentos OTC o suplidos deben estar incluidos por su médico en la receta. El farmacéutico procesará su receta como cualquier otra receta médica.

Si necesita orientación o ayuda, puede comunicarse con el Departamento de Servicios al Afiliado de MMM Healthcare, LLC, al 787-522-7800 (Área Metro), 1-888-767-7717 (libre de cargos), o al 1-877-672-4242 TTY, (audioimpedidos) lunes a domingo de 8:00 a.m. a 8:00 p.m.

## **Advertencia de productos a base de hierbas**

Las hierbas medicinales, como cualquier otro medicamento, pueden tener un efecto sobre el cuerpo y deben ser utilizadas con cuidado. No todos los productos a base de hierbas son medicinas. Siempre recuerde que las frases "natural", "hierbas" y "derivados de plantas" no significan necesariamente "seguro". **Existe la percepción de que lo natural es igual a seguridad** y, por tanto, muchos usuarios de hierbas medicinales no se darían cuenta de que un remedio a base de hierbas puede ser responsable de los síntomas que han experimentado y puede interactuar con algunos medicamentos. Por esta razón, para su seguridad siempre debe

informar a su médico o farmacéutico acerca de todos los medicamentos que está tomando, especialmente vitaminas, productos naturales o hierbas.

**En MMM Healthcare, LLC proveerle un servicio de calidad es nuestro compromiso con su salud y bienestar.**
